

David Redinha Resume

Born 7 June 1979 in Huambo (Angola), lived in Angola (Luanda) until 9 years old when moved to Macau (South China) till 22 years old then moving to Brighton (England) and living in Brighton for the past 8 years.

I am a creative individual especially in terms of audio (music, sounds and vocals) and have been creating various styles of music for many years. Play various different music instruments including vocals. Since I was living in Macau, a small peninsula in South of China, I didn't have much opportunity for audio media jobs, I decided to come live in Brighton where there's a lot of artistic movement.

I am have a BA degree in Music Composition and Technology at Northbrook College and am seeking opportunity to expand my musical knowledge and abilities. I have been living in England for eight years and I feel comfortable with the written and spoken English environment. I am a Computer Technician with a lot of experience with Software and Hardware repairing and Music. Advanced in Music Software (Cubase, Kontakt)

I am determined to find opportunities to use my ideas to: work in studios, TV/Radio stations, as a Music Composer for film, animation, documentaries, performances and video games, creating relationships with producers.

My experience with sound comes from playing and creating original music for quite a while, organizing events for artists, recording bands in studio and working with live bands, composing for film.
